Civilization V is a turn-based strategy game, where each player represents the leader of a certain nation or ethnic group ("civilization") and must guide its growth over the course of thousands of years. The game starts with the foundation of a small settlement and ends after achieving one of the victory conditions—or surviving until the number of game turns end, at which point the highest ...

MPPatch is a patch for Civilization V that allows mods to be used in multiplayer without specially preparing a mod pack, or anything like that. It basically adds back the multiplayer mods menu that got commented out, and makes it actually work. It currently supports Windows and Linux. I will eventually add Mac support. I don't currently have access to a Mac, so this could take some time. It ...

"Local Co-Op" Steam Tag Terminology. The following is some key terminology relevant to understand the below table. Local multiplayer: Local multiplayer can refer to both single-device and LAN multiplayer. However, for the purpose of this list it will only be used to refer to games which can be played by multiple users on a singular device, albeit potentially with multiple controller devices.

.
