Corporate Strategy is different than business strategy, as it focuses on how to manage resources, risk, and return across a firm, as opposed to looking at competitive advantages. Leaders responsible for strategic decision making have to consider many factors, including allocation of resources, organizational design, portfolio management, and strategic tradeoffs.

The title is somewhat misleading, as some people seem to think it's supposed to be about "strategy," which it is, but only from a corporate finance perspective. Rather, it's an overview book that attempts to describe the full weight of modern understanding of asset pricing and corporate finance to an ambitious masters student. In this respect, it looks a lot like what a masters level Physics ...
